SALE LOCATION:

17 miles south of Monument, KS on C.R. 350, cross the Smoky River, then 1 mi. West. Watch for signs, see map on Inside Back Cover

SALE TERMS & CONDITIONS:

All bulls sell under the suggested terms and conditions set forth by the Red Angus Association of America. All announcements from the sale block take precedence over any printed material.

GUARANTEE:

All bulls have passed a breeding soundness exam and are guaranteed to be breeders. Each animal becomes risk of buyer as soon as sold. All bulls selling for \$4000 or more are guaranteed against breeding injury for the first breeding season. A breeding season is defined as 90 days after turn out. Breeding injury is defined as a injury to penis or preputial tear with inability to extend. This is not an insurance policy. This guarantee does not cover non-breeding injury resulting from an accident or gross negligence. If any breeding injury occurs contact Smoky Y Ranch or Dr. Paul Ritter, or have your veterinarian contact Dr. Paul Ritter. If a replacement bull is available he will be provided, or if the buyer prefers, 1/2 of the purchase price value will be applied toward another bull in the next sale. Buyer keeps salvage value. Notification must be made prior to or during the first breeding season.

BULLS SELLING:

Smoky R Ranch is retaining one-third semen interest on all bulls sold unless specified differently in the sale catalog. This gives Smoky Y Ranch the option to collect, use and market semen from the bull at our expense and at the buyers convenience.

LIABILITY:

All persons attending the sale do so at their own risk. Neither Smoky Y Ranch, nor any other person connected with the management of the sale assumes any liability, legal or otherwise.

DELIVERY:

Free delivery within a 100 mile radius of the ranch or a central location. We will assist with trucking arrangements on any purchases outside of the area. Any delivery over 200 miles will be discussed and pro-rated out with the customer.

HERD HEALTH:

All calves have been PI tested. All bulls in the sale will have been semen checked and passed a fertility and soundness exam. Health certificates can be issued on any animal in the sale, making them eligible for interstate shipment. The bulls and females in the sale have been pre-weaned and weaning vaccinated for respiratory disease. They have been poured, dewormed and ear notch tested for BVD. All females have been palpated and pelvic measured. All heifers are guaranteed open and have been tested for BVD and calfhood vaccinated. All bulls have had their first round of Fusoguard.

SMOKY Y RANCH

WELCOME TO SMOKY Y RANCH RED ANGUS

Dear Breeders and Friends,

On behalf of our entire family, we invite you to our Fourth Production Sale, consisting of 60 Red Angus bulls and 80 red and black open yearling commercial heifers. Although our family has been in the cattle and ranching businesses for more than 40 years, we are now committed to the Red Angus seedstock industry. We acquired the Camp 1A and Windy Hill herds in their entirety over the last several years, and have invested heavily in new herd sires and donor females as well. We feel that with these purchases, we are moving in the right direction toward being one of the constant and reliable bull and female suppliers to the industry.

Since 1978, our grandfather and father have owned and operated Smoky Y Ranch. They ran and continue to run a commercial herd with great success. We continue to utilize the best bulls we can find throughout North America for use in this herd, and it serves as the background for our decision to be in the registered business. We hope you can be with us for our sale March 30. We are hosting a preview gathering and supper on Wednesday evening prior to the sale. Everyone is invited, and the sale offering will be on display.

Please contact us if there is anything we can do to add any information to the lots selling. We are happy to be working with Keith Kisse and Kent McCune in regards to the sale, so contact them or watch and bid through DV Auctions.

Thank you for your interest in our program, and we hope to see you sale day.

Sincerely,
Younkin Family
Cody & Kelly Younkin

Adam Hickel and Annie Weber

Special Thanks To:

2014 NAILE Grand Champion Bull

Smoky Y Ranch is the home of AHL Flashback 446B. He was purchased last fall through the Englewood Dispersal, and he has experienced heavy service in the fall calving herd.

AHL Flashback 446B is a major herd sire influencing prominent programs across the country. After a remarkable show career, his service has been utilized across North America through AI, ET and natural mating. He topped the Western Heritage Sale at the 2015 National Western Stock Show at \$102,000. The young progeny by this great sire are among the most exciting calves ever born. His influence is easily noted and all are standouts. This complete breeding sire has combined all important traits and offers the most comprehensive bloodlines to the industry. His progeny tell the complete story. They are stamped with his pleasing profile, and are big-topped, big-boned and pacing the industry for actual performance.

His sire, PZC TMAS Firestorm 1800 ET, has become one of the dominant breeding sires in the history of the Red Angus breed. The Red Six Mile Sakic 832S/GT Cita

4060 mating has resulted in this legendary sire. The breeding represented in this sire line has worked superbly across the North American continent.

His dam, AHL Duchess 42W, is the \$72,000 female that topped the Power Forward Sale this spring when she was sold to the Steve Nathanson family. The daughter of PIE Get Western 4061 has become one of the most prolific donor females in the Red Angus breed.

A unique opportunity to acquire breeding access to one of the greatest breeding bulls of any breed.

Semen is presently not on the open market. Smoky Y Ranch is offering a one-time semen opportunity to obtain his influence through this semen offer.

Selling 50% Interest

Smoky Y One Direction 6137D is among the best to ever be generated in the Smoky Y breeding program, and this substantial breeding bull emerges from the Red Angus breed registry as one of the best born in 2016. He has become one of the most discussed sons of PIE One of a Kind 352, and combines all of the breed's most important and needed traits. Years of selective breeding are noted and most obvious within the genetic profile of this dynamic breeding bull.

His sire, PIE One of a Kind 352, is considered one of the great breeding bulls to be born into the Red Angus breed. His influence has been utilized by some of the great breeders in the industry, and his genetic impact has been spectacularly displayed within the Smoky Y breeding program. His sons and daughters are

among the top of the 2016 calf crop by all means of measure. His genetic advancement has further projected the sons that sell as Lots 1 through 7 as significant breed enhancers.

His dam, Red Windy Hill KAE 1225Z, is a powerhouse of a breeding female. She has passed all the tests, and is a proven individual of the most substantial accomplishments. Her overall dimension transmits to her offspring, and Smoky Y One Direction 6137D has resulted into her most noted offspring.

All parts of this bull are in check. A complete young Red Angus bull sells as Lot 1.

Smoky Y Inferno 6121D is a massive son of PIE One of a Kind 352. One of the best of the lot, this February-born bull puts it all together in a package of completeness. He is constructed in the same image as his sire, and he is sound, complete and deep. In addition, his wide top and big hip merge harmoniously with the rest of his body. He is strong topped and adjoins his front neck and head into ample forerib.

His hard working dam adds value to the bulls potential. She is an excellent female that transcends phenotype and genotype perfection. She is from the Belle cow family generated in the Windy Hill herd, and, in turn, her sire, Red Soo Line Cash 7419, has been a major contributor to efficiency and breed improvement. She is a cornerstone female in the Smoky Y breeding program, and she contributes extensively to the power and scope of this bulls genetic assets.

Absolute perfected EPDs, performance, ultrasound data and phenotype make this an excellent herd sire for a progressive breeding program.

Smoky Y Diesel 6107D is an extraordinary herd bull for the best in phenotype, genotype and trait measurement of all economically important traits. He is among the best individuals bred by Smoky Y Ranch, and ranks as one of the top bulls to sell this year throughout North America. He is perfectly constructed with an excellent profile and abundant muscle, capacity and dimension. He stands on extra bone to support his ample frame. He moves with ease and authority, and he continues to be fluid in his movement and carries the performance and weight easily. Performance, ultrasound measurements, EPDs and phenotype are harmoniously blended into this perfect breeding bull for adding power and punch to a set of females.

His sire, PZC TMAS Red Sky 2794, is among the breed’s most noted proven sires. The consistency and genetic reach of this great sire is obviously noted when appraising the replacement females and 2-year-old females now with their first and second calves. His influence will become more and more important to the industry as time goes on.

His dam, Camp 1A Galee U879, is one of the highest ranking females from the Camp 1A group of females that initially formed the foundation for the Smoky Y cow herd. She traces back to some of the early foundation genetics generated in the Bieber breeding program.

Smoky Y Red Sky 6100D is representative of the completeness and successfulness of this merger with the strong Camp 1A cow herd. Big performance and scan data indicates the best in the industry as far as problem-free genetics. The Olive line of females has had great results in producing the bulls popular with Smoky Y customers.

Lots 20 and 21 are 3/4 brothers, sired by PZC TMAS Red Zone 2795 from daughters sired by Feddes Oscar X28. Smoky Y Jax 6170D is dark in color, recorded impressive weaning and yearling data, scanned a 4.60 %IMF, scanned a 12.59 REA and has an impressive set of EPDs across the board. Some of the most noted individuals in the Smoky Y breeding program and past Smoky Y sales have been generated by this female and the cow family she descends from. This late January bull ranks as one of the most significant members of the bull sale inventory selling.

Smoky Y Right Kind 6163D has the completeness of pedigree and phenotype to make a significant breeding bull. The 72 pound birth weight makes him a calving-ease candidate, and he excels in performance and %IMF scan. He is the son of PIE Right Kind 312D, the selected herd sire that is one of the leading herd sires at Smoky Y Ranch. Several years of breeding and improvement have been incorporated into the pedigree of this yearling bull. The muscle and rib shape are a hallmark of these sons that sell that are sired by the son of Buffalo Creek The Right Kind. This is a prime example of the quality of the half brothers that sell.

Smoky Y Rocco 6138D is a February bull sired by the Smoky Y herd sire that is proving to be a tremendous asset to the breeding herd. The breeding bull was purchased from the Weber program in Denver a few years back, and the son of CRSL Goldmaster X74 is siring progeny with great value and herd improvement. Five of his sons are in the offering this year. This bull has some of the most solid performance and scan information across the board. Dark red in color, this bull has the power to add pounds and consistency to calf crops at weaning. His dam is one of the strong females that consistently has one of the top calves year after year.

Smoky Y Shinedown 6171D is a son of WEBR Shine Down 435 from one of the maternal cow families from the Windy Hill program. The powerful Windy Hill program was purchased in its entirety, and the value-added genetic influence has significantly moved the entire Smoky Y breeding herd. This is a thickly constructed and perfectly moving bull with the extra dimension that is noteworthy of the WEBR Shine Down 435 progeny. This is a complete and noted pedigree that indicates problem-free genetics to assist in a breeding program. Years of genetic improvement is a part of this bull's genetic profile, and he is one of the 60 bulls who have made the cut for this year's bull offering.

Smoky Y Young Gun 6181D is backed with the strongest maternal genetic material available. Red YY Red Knight is a reference sire of note. His influence has been a great addition to the industry for over a decade. Some of the most powerful individuals in the herd books in North America trace to the superior sire. Maternal strength is offered in this bull through the completeness of the maternal aspect of the pedigree. The strong maternal EPD with the outstanding scan data and performance statistics indicate that this is yet another of the power-packed bulls in the offering.

Smoky Y Legacy 6199D is a uniquely bred individual. The March bull is from one of the leading donors at Smoky Y, and Red Rainbow Lois 7U was one of the top-selling lots in the historic Wildcat Creek Dispersal. The genetics that hold up the maternal part of this bulls pedigree represent the most respected and proven lineage in North America. The sire, WPRA Legacy A-314, is one of universal importance and acceptance. The breeding bull has become one of the most exciting contributors of outcross genetics to the breed. The balance and measure of the traits and involved in the tabulation of this bulls pedigree and statistics, indicate herd sire of extraordinary proportions.

RETURN ON INVESTMENT

Red Angus genetics will improve your return on investment!

"For 10 to 15 years all the buyers ever talked about was black calves, and the black calves always brought more than everything else. Now I can honestly say that good Red Angus calves outsell the black calves and I know the Red Angus bred heifers will outsell black Angus bred heifers of equal quality every day."

— Jim Davis, Superior Livestock Auction

Independent research shows Red Angus-sired calves sold for a higher price than all other breed groups. Red Angus bulls make a positive difference in your breeding program's bottom line.
