Welcome to Smoky Y Ranch Red Angus

Dear Breeders and Friends,

On behalf of our entire family, we invite you to our fifth Production Sale, consisting of 78 Red Angus bulls and 50+ commercial first calf heifer pairs, and 100+ commercial open heifer calves.

Although our family has been in the cattle and ranching businesses for more than 40 years, we are now committed to the Red Angus seedstock industry. We acquired the Camp 1A and Windy Hill herds in their entirety over the last several years, and have invested heavily in new herd sires and donor females as well. We feel that with these purchases, we are moving in the right direction toward being one of the constant and reliable bull and female suppliers to the industry.

Since 1978, our grandfather and father have owned and operated Smoky Y Ranch. They ran and continue to run a commercial herd with great success. We continue to utilize the best bulls we can find throughout North America for use in this herd, and it serves as the background for our decision to be in the registered business. We hope you can be with us for our sale April 5. We are hosting a preview gathering and supper on Wednesday evening prior to the sale. Everyone is invited, and the sale offering will be on display.

Please contact us if there is anything we can do to add any information to the lots selling. We are happy to be working with Innovation AgMarketing and Kent McCune as a sale consultant. If you have any questions about the offering please feel free to contact us or the sale staff to visit about the cattle. Thank you for your interest in our program, and we hope to see you sale day.

Sincerely,

Younkin Family - Cody & Kelly Younkin

In Loving Memory

Say not in grief 'she is no more' but in thankfulness that she was.

2017 marked a difficult year for us as we said goodbye to an essential part of our operation. Grandma Lyla has gone home to be with Grandpa Jack (Floyd) and watch over us from above. The two started the family ranch in 1978 with their children Randy Younkin and Tami Poore (Younkin).

We would like to thank these two very special people for their hard work and dedication, without them the ranch would not be what it is today. We love and miss them terribly.

Dear Breeders and Friends,

It is with great pleasure that we welcome you to the fifth annual Smoky Y Ranch Red Angus Production Sale. Enthusiasm throughout the Red Angus business have led to exciting times for the breed as a whole. Increased registrations and a dominant presence by red hided cattle in the market place demanding a premium, have proved to be rewarding for those that have injected Red Angus genetics into their respective programs.

We couldn't be more excited to represent the Younkin family and assist in the marketing of their product. The definition of a family operation, the Younkin's are completely dedicated to the agriculture industry and have established roots in the commercial cattle ranching industry. Through careful selection and a determined attitude to improve their product, the Smoky Y Ranch has grown into one of the premier Red Angus programs. A strong offering of rugged, sound built, powerful Red Angus bulls will sell on April 5th, along with a set of commercial first calf heifer pairs from the heart of the Smoky Y commercial herd. Additionally, 100+ commercial open replacements will be offered.

Consider this your invitation to join us the day before the sale for a pre-sale viewing of the cattle and dinner. On Thursday, April 5th, 2018 lunch will be served at 12 Noon and the sale will begin at 1:00 PM. Videos of the sale offering will be available on DVAuction.com prior to the sale. Please feel free to contact any of the sale staff with inquires about the sale offering.

Enjoy the Cattle!

SALE TERMS & CONDITIONS

All bulls sell under the suggested terms and conditions set forth by the Red Angus Association of America. All announcements from the sale block take precedence over any printed material.

BULLS SELLING

Smoky Y Ranch is retaining one-third semen interest on all bulls sold unless specified differently in the sale catalog. This gives Smoky Y Ranch the option to collect, use and market semen from the bull at their expense and at the buyers convenience.

LIABILITY

All persons attending the sale do so at their own risk. Neither Smoky Y Ranch, nor any other person connected with the management of the sale, assumes any liability, legal or otherwise.

GUARANTEE

All bulls have passed a breeding soundness exam and are guaranteed to be breeders. Each animal becomes risk of buyer as soon as sold. All bulls selling for \$4000 or more are guaranteed against breeding injury for the first breeding season. A breeding season is defined as 90 days after turn out. Breeding injury is defined as an injury to penis or preputial tear with inability to extend. This is not an insurance policy. This guarantee does not cover non-breeding injury resulting from an accident or gross negligence. If any breeding injury occurs contact Smoky Y Ranch or Dr. Paul Ritter, or have your veterinarian contact Dr. Paul Ritter. If a replacement bull is available he will be provided, or if the buyer prefers, 1/2 of the purchase price value will be applied toward another bull in the next sale. Buyer keeps salvage value. Notification must be made prior to or during the first breeding season.

DELIVERY

Free delivery within a 200 mile radius of the ranch or a central location. We will assist with trucking arrangements on any purchases outside of the area. Any delivery over 200 miles will be discussed and pro-rated with the customer.

HERD HEALTH

All calves have been PI tested. All bulls in the sale will have been semen checked and passed a fertility and soundness exam. Health certificates can be issued on any animal in the sale, making them eligible for interstate shipment. The bulls and females in the sale have been pre-weaned and weaning vaccinated for respiratory disease. They have been poured, dewormed and ear notch tested for BVD. All females have been palpated and pelvic measured. All heifers are guaranteed open and have been tested for BVD and calfhood vaccinated. All bulls have had their first round of Fusoguard.

INTERNET BROADCASTING

Complete sale videos and lot preview available online at: www.DVAuction.com. Please register prior to sale day. If you have questions or trouble registering to bid call (402) 316-5460.

What a way to start off the 2018 Offering with none other that SMOKY Y NOW OR NEVER 7139E! A true herd bull prospect and one of the most elite individuals ever produced on the ranch. He is sired by the Genex stud known as Profit Builder and backed by the productive 78Y female, who is an own daughter of Prime Rib. This bull checks all the boxes and does so many things right. From the ground up he is flawless on he feet and legs, sound built, and athletic on the move. His rib shape is impressive, while his muscularity and genuine shape is second to none. If his impressive phenotype isn't enough to warrant herd bull status, his EPD profile is sure to impress! He is among the elite in the breed, ranking in the top 2% for GridMaster, top 4% HerdBuilder, top 2% STAY, top 4% MARB, top 12% YW, and top 17% CW. It is truly NOW OR NEVER, to put your program on the fast track!

LOT 4

KOJAK 7209E is a trait leading Profit Builder son that is sensational from every angle! His dam is a top producing, young Red Sky daughter that is a hard working female. We admire this bulls added length of side, muscle shape, and true performance! He is a performance stud, tipping the scales at 766 lbs. at weaning day, and coming in at 1303 at a year. He will add pounds to your calf crop, enhance your bottomline, and make your neighbors envious of the replacements you keep back that are sired by him. Let 7209E help your next calf crop top the market!

This is another top Profit Builder son that is by a stand out Red Zone daughter that is a hard working two year old. During her rookie season in production, she brought a 716 lb. bull calf to the weaning pen that we knew was a stud! 7211E is a big footed, stout boned, heavy muscled bull that we admire for his structural correctness, body mass, and true dimension. He also ranks in the top 10% of the breed in several profit enhancing traits. Study the genuine shape that this prospect offers!

7184E is a top Black-Red Carrier prospect that is from an exceptional Red Sky daughter that weaned off this stud at over 650 lbs. He boasts an actual BW of 62 lbs., talk about tremendous real-world spread! He too is in the top 7% of the breed for Marb, offering carcass merit to his progeny. A top black hided bull that will leave behind an exceptional set of replacements!

Black Red-Carrier

The Signature Sire Group

LOT 10

Red Six Mile Signature - Sire of Lot 10

LOT 11

A-1 Siera Indeed 549X - Dam of Lots 10 & 11

This pair of bulls is from a leading female in our program, A-1 Siera Indeed 549X. This female has done an exceptional job regardless of which bull we have mated her to. She originated in the famed A-1 program in Texas, and we are fortunate to have this female as an integral part of our program. She is a maternal sister to the great Sakic, a leading sire that has left his mark on the breed. Her sire, Indeed has made an impact by siring females with tremendous udder quality, functionality, and quality. These two studs that are backed by the great Siera 549X are sired by breed leading sires; Signature and Concept. Signature took the breed by storm with his stylish look, dark red hide color, and overwhelming power and substance. Concept was our selection from the great Bar E-L program that we partnered on with Lynn Combest, Double A Land & Cattle, and Twin Willow Farms. This pair of maternal brothers has the potential to serve as herd sires for even the most discriminating programs in the business, the toughest thing to determine is which Siera son will work best for you!

Red Rainbow Lois 7U - Dam of Lots 12 & 13

Concept

7174E and 7194E are full brothers by Concept that we admire for their natural thickness, genuine base width, and three-dimensional muscle shape. They are bold, athletic, and have style to burn. They are backed by arguably one of the most elite Red Angus females we have ever laid our eyes on. Unbelievable profiling female that offers a presence that is second to none. She stamps her progeny time after time with the undeniable quality and structural integrity that is admired by even the most critical. This pair has the potential to impact any progressive program, whether it be seedstock or commercial.

Red Sky

The Red Sky sire group has continued to impress time after time. Now that daughters are in production we are able to truly realize just how valuable the Red Sky impact truly is. Excellent foot size and structural integrity, body mass, stoutness, and squariness can be identified within the sire group. 7161E has been a standout Red Sky son since birth. His dam is from the prolific Crystal cow that originated from the Camp 1A program in Canada. 7161E was the number 1 weaning and yearling weight bull within his contemporary group, boasting a 722 lb. WW and 1366 lb. YW. He offers ratios of 114 and 110 respectively. Exceptional stoutness with real world performance found here!

PZC TMAS Red Sky 2794 - Sire of Lots 14 - 21

LOT 15

7113E is another tremendous Red Sky son that is built to last! He is big boned, wide based, and shapely in his muscle expression from end to end. His dam is a highly productive High Capacity daughter that came to us from the Camp 1A program. His style, presence, and herd bull look set him apart from the crowd. He offers a balanced number profile, ranking in the top 9% for GridMaster and top 9% for CW. He offers a REA Ratio of 107. Tremendous phenotype with excellent carcass merit!

LOT 16

7183E is a deep, dark red standout that offers exceptional balanced, eye appeal and real world functionality. He is a long sided, smooth shouldered, big-topped bull with stoutness and expression from behind. His dam is a direct daughter of Northline Robson 714T. He ranks among the breeds top 6% for ME. In addition to over a 700 lb. weaning weight and exceptional balance that is identified with his EPD profile, he is the number 1 IMF bull within his contemporary group, with a ratio of 151 for IMF! Look no further if you're searching for a herd bull with quality, phenotype, and breed leading carcass merit.

Red Sky progeny have excelled within our program due to their consistency, uniformity, and real-world functionality. They have remained fundamentally correct on their feet and legs, bold ribbed, easy fleshing without sacrificing the performance that is necessary whether you sell your cattle by the pound or retain ownership. Red Sky himself is an exceptional individual, with unparalleled structural correctness and eye-appeal. 7210E is another top prospect by Red Sky that is out of a fault-free Napoleon daughter that has a picture perfect udder. 7210E is another bull that weaned off at over 700 lbs.!

7100E is the lone Red Zone sired bull in the offering. Red Zone, a full brother to Red Sky has certainly done an outstanding job in our program as well. Throughout the course of time, the Red Zone and Red Sky sons have topped previous sales and gone on to make substantial impacts on the programs that have selected them. From a young, hard working female in our program, 7100E offers exceptional upside!

One of A Kind

There is no question that PIE One Of A Kind 352 is one of the most unique Red Angus sires to come along in some time. He offers exceptional thickness, eye-appeal, structural integrity, and true body mass. There is no denying that One Of A Kind will forever be recognized as one of the breed's truly elite breeding bulls. 7140E is among the top sons ever sired by the breed leading PIE One Of A Kind. His substance, masculinity, and the genuine mass and body dimension that he offers is second to none! He is balanced numerically, with excellent scan data, offering a 112 REA ratio. If this isn't enough to warrant herd bull status, consider that he boasts a 73 lb. actual BW, making him a viable option to serve as a heifer bull.

LOT 25

7208E is a standout in this year's calf crop. Not only does he separate himself with his black hide color, this bull is flat STOUT! We have admired his natural thickness, genuine rib shape, athletic build and body type, as well as his balanced phenotype throughout the different stages of development. His dam combines some of the most proven and reliable genetics in North America. He excelled at weaning time with over 700 lbs. of weaning weight. Add this powerful herd sire to your program in order to increase pay weight!

Black - Red Carrier

Right Kind

MONUMENT is a true breeding bull prospect that exemplifies power and dimension! This stout PIE RIGHT KIND son is one that everyone will identify on April 5th! He is big footed, correct on his feet and legs, bold in his fore-rib and center body, with excellent depth of flank and carries this same dimension into his stifle. His dam offers the qualities of the Olive cow family and traces back to the great Perks Advance 121R sire. Exceptional growth and performance accompanies this herd bull prospect!

SIRE: PIE RIGHT KIND 3120

DAM: SMOKY Y RED ANGUS COW

7178E is a Red Angus bull that sells unregistered, and although he doesn't have a registration number or EPD's, he does offer some key production traits that we find to be of the utmost importance. He is a big boned, long sided bull that offers tremendous natural thickness and has a functional structural base. Real world performance and curve bending growth, starting at 68 lbs. and weaning at over 670 lbs.!

The Moonshine Sire Group

LOT 40

We have utilized Red Crowfoot Moonshine within our breeding program and we couldn't be more pleased with the results and anxious to watch these Moonshine sons impact the breed. Moonshine has been utilized for his proven calving ease genetics, growth, excellent carcass quality, along with proven progeny that have excelled in the different facets of the beef industry. Moonshine is an aged bull that has been used in a variety of different situations with great success by some of the most reputable Red Angus operations in North America. Study the genuine power, thickness, and capacity that 7142E brings to the table. His dam is a productive member of the Crystal cow family that is an easy fleshing, big ribbed, powerful individual that is sired by Cowboy Cut. One of the powerful herd bull prospects in the offering that offers balanced data and a stellar phenotype!

7161E is the definition of powerhouse! He is another stout Moonshine son that studies with tremendous thickness and expression from every angle. This is a fault-free, sound build herd bull prospect that is big testicled, long sided, and performance oriented. His dam is an exceptional Lancer 482P daughter that always does an excellent job time after time. He offers a negative BW EPD and spreads to nearly 100 at a year. Starting at 71 lbs. and weaning at over 630 lbs., real world curve bending genetics... pounds pay!

Red Crowfoot Moonshine 8081U - Sire of Lots 40 & 41

Oscar

We couldn't be more pleased with the results that we have had utilizing Feddes Oscar X28 within our program. Raised in the renowned Feddes program of Montana, X28 is a four star calving ease option that is a true female maker. He is masculine, rugged, and the definition of a true athlete. His dam and maternal grandam are both high impact donors in the Feddes program. Progeny have continued to excel across the country and we couldn't be more excited to offer a large sire group of sons for your appraisal. 7124E is a powerhouse, boasting a top 15% HerdBuilder, with a top 2% GridMaster, top 4% CEM, and top 7% CW. He is phenotypically an impressive individual that offers added longevity with the power and substance we expect from our herd bulls. A true sale feature and a must see on April 5th!

This About Time son is stout! Big topped, thick ended, sound built and ready for heavy service. Study the genuine muscle shape and expression that this stud offers. A true power bull with a 72 lb. BW!

7203E is another About Time son that offers structural integrity and real world performance. With an 86 lb. start, he came to the weaning pen at 700 lbs. Generate heavier pay weights with 7203E!

Achieve it!

RETURN ON INVESTMENT

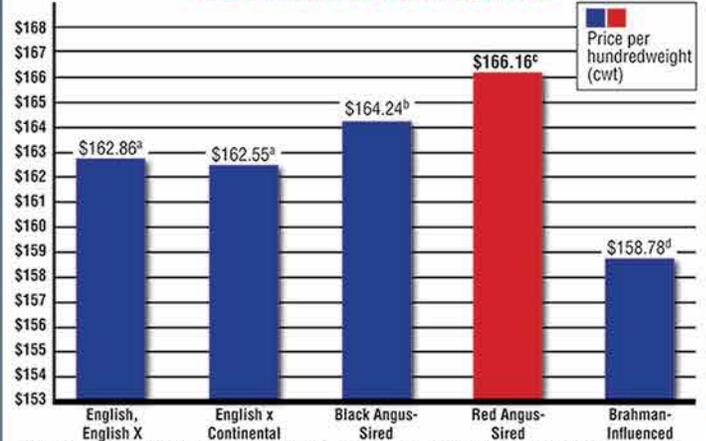

Red Angus genetics will improve your return on investment!

"For 10 to 15 years all the buyers ever talked about was black calves, and the black calves always brought more than everything else. Now I can honestly say that good Red Angus calves outsell the black calves and I know the Red Angus bred heifers will outsell black Angus bred heifers of equal quality every day."

– Jim Davis, Superior Livestock Auction

Effect of Breed Description on the Sale Price of Beef Calves*

* King, et al., 2015. The effect of breed description on the sale price of beef calves sold through 116 Superior Livestock Auction's video sales from 2010 – 2014. J. Animal Science. Volume 93, Supplement S-3, pp 640-641.
^{a-d} Means with unlike superscripts differ (P<0.05).

Independent research shows Red Angus-sired calves sold for a higher price than all other breed groups. Red Angus bulls make a positive difference in your breeding program's bottom line.

COMMERCIAL FIRST CALF HEIFER PAIRS

Once again we are proud to offer 50+ commercial first calf heifer pairs in lot groups of 5. This set of females is from the heart of the Smoky Y Commercial herd. Many of these females are backed by the same genetics as our registered herd and have been culled strictly for feet and leg issues, potential udder quality issues, or fertility. These females have been under the same management and vaccination program as the registered herd and sell in proper health. This is a tremendous set of females that will have videos available at DVAuction.com prior to the sale.

COMMERCIAL REPLACEMENT HEIFERS

We have previously offered a fancy set of commercial open replacement heifers; this year we have more than we can retain ourselves. This is the deepest and highest quality set of commercial open heifer calves we have ever offered for sale. We are proud to offer 100+ commercial open replacements. They have had all the pre-breeding shots, been poured, de-wormed, PI Tested, bang vaccinated, and pelvic measured.

For further information call Cody Younkin (303) 621-4970 or Kelly Younkin (785) 672-2345

A herd of brown cows is gathered in a dry, brown field. The cows are of various sizes, including several calves. They are positioned between two parallel fence lines that stretch into the distance. The ground is uneven and appears to be a mix of dirt and sparse, dry grass. In the far background, a red-roofed building is visible on the horizon under a clear blue sky with scattered white clouds.

Thank you to our valued customers!
