(516) 366-0734 [CCI.live.schedule@cci.live](mailto:CCI.live.schedule@cci.live)

*Dear Breeders and Friends,*

On behalf of our entire family, we invite you to our Eighth Annual Production Sale, consisting of 90+ Red Angus bulls, 60+ commercial first calf heifer pairs, and 160+ commercial open replacement heifer calves.

Although our family has been in the cattle and ranching businesses for more than 40 years, we are now committed to the Red Angus seedstock industry. We acquired the Camp 1A and Windy Hill herds in their entirety over the last several years and have invested heavily in new herd sires and donor females as well. Our most recent acquisition was a select group of bred heifers from the well-respected Six Mile Ranch program of Saskatchewan, Canada. We feel that with these purchases, we are moving in the right direction toward being one of the constant and reliable bull and female suppliers to the industry.

Since 1978, our grandfather and father have owned and operated Smoky Y Ranch. They ran and continue to run a commercial herd with great success. We continue to utilize the best bulls we can find throughout North America for use in this herd, and it serves as the background for our decision to be in the registered business. We hope you can be with us for our sale April 9. We are hosting a preview gathering and supper on Wednesday evening prior to the sale. Everyone is invited, and the sale offering will be on display.

Please contact us if there is anything we can do to add any information to the lots selling. We are happy to be working with Innovation AgMarketing, as well as Kent McCune and Gerri Schumacher as sale consultants this year. If you have any questions about the offering please feel free to contact us or the sale staff to visit about the cattle. Thank you for your interest in our program, and we hope to see you sale day.

*Sincerely,*

*Younkin Family - Cody & Kelly Younkin*

*Fellow Red Angus Enthusiasts,*

The Younkin Family have and are continuing to build the ultimate operation. It's one of diversity as it spans thousands of acres stocked to the hilt. The roots of the operation would be totally commercial cow calf and that's what keeps the whole operation grounded and profitable. When they acquired the initial registered red cattle nearly a decade ago, they were green to the seedstock business, but knew they would benefit raising their own bulls to run on the thousand plus commercial females they already had. The mindset and investment lead us to where we are today in assisting them with a true Rancher Philosophized annual Bull Sale. We are as excited as ever to bring you 90+ Red Angus breeding aged bulls that are ready for heavy service.

The Canadian based registered cows were acquired from operations that had successful endeavors in the bull business with reputation and fundamentally sound females. Females that can travel a distance to water, females with big, good feet, textbook udders, perfect fertility, and dominant rib and muscle shape with the most desired build. The foundation of this program was built with great eyes, by great stockmen, and the Younkin Family have surrounded themselves with great eyes to better their program in the beginning, but they have latched on now and there's not much that the third generation misses in their daily evaluations. Cody and Kelly get it done in a non-stop fashion day in and day out. They are young, they are hungry, they are competitive, and good enough is not good enough. This cowherd continues to get better with each year, with each genetic investment, and with each challenge mother nature may throw their direction. Deep Western Kansas is a great place to ranch and raise a family, but those mother nature factors can be unbelievably harsh and relentless from droughts to Winter storms, it's not for the faint of heart. Those are just a few reasons the April 8 sale date needs to be in your travel plans.

Smoky Y runs over 1000 commercial females that calve on grass April and May. The heaviest and top cut is split two ways between what they intend to breed to sell as pairs the following year and what is offered in regard to the open heifer division of the annual production sale. These ranch raised commercials are hardy, not pampered a day in their lives. Born on grass, grown on grass, and winter fed on grass. The pairs offered are A.I. bred to low birth weight bulls and cleaned up with the Smoky Y bull battery. For those that may be curious the cull heifers and steers are sold in Burlington every year in March or April whichever the marketplace favors the best result at the end of the day. Successful ranching does not have a formula, it is however, all about timing and the Smoky Y crew has that down to a perfect science.

We hope you plan to take in this real-world experience and make the trip to Western Kansas on or even before April 8, 2021. The Younkin's are very accommodating and always welcome visitors. If you have any questions, please reach out to any of the Innovation Ag Marketing team members or any of the Younkin Family to achieve your needs.

Four handwritten signatures in black ink are displayed horizontally. From left to right, they appear to be: 'younkin', 'Blair', 'JL Ste', and 'Anderson'.

*Enjoy the Cattle!*  
*Innovation AgMarketing, LLC*

## SALE ACCOMMODATIONS

Sleep Inn, Oakley - (785) 671-1111

## SALE TERMS & CONDITIONS

All bulls sell under the suggested terms and conditions set forth by the Red Angus Association of America. All announcements from the sale block take precedence over any printed material.

## BULLS SELLING

Smoky Y Ranch is retaining one-third semen interest on all bulls sold unless specified differently in the sale catalog. This gives Smoky Y Ranch the option to collect, use and market semen from the bull at their expense and at the buyers convenience.

## LIABILITY

All persons attending the sale do so at their own risk. Neither Smoky Y Ranch, nor any other person connected with the management of the sale, assumes any liability, legal or otherwise.

## ADVERTISING AND CATALOG PRODUCTION

THM Promotions, LLC - Tracy McMurphy  
(806) 679-0231

## GUARANTEE

All bulls have passed a breeding soundness exam and are guaranteed to be breeders. Each animal becomes risk of buyer as soon as sold. All bulls selling for \$4000 or more are guaranteed against breeding injury for the first breeding season. A breeding season is defined as 90 days after turn out. Breeding injury is defined as an injury to penis or preputial tear with inability to extend. This is not an insurance policy. This guarantee does not cover non-breeding injury resulting from an accident or gross negligence. If any breeding injury occurs contact Smoky Y Ranch or Dr. Miller, or have your veterinarian contact Dr. Miller. If a replacement bull is available he will be provided, or if the buyer prefers, 1/2 of the purchase price value will be applied toward another bull in the next sale. Buyer keeps salvage value. Notification must be made prior to or during the first breeding season.

## DELIVERY

Free delivery within a 200 mile radius of the ranch or a central location. We will assist with trucking arrangements on any purchases outside of the area. Any delivery over 200 miles will be discussed and pro-rated with the customer.

## HERD HEALTH

All calves have been PI tested. All bulls in the sale will have been semen checked and passed a fertility and soundness exam. Health certificates can be issued on any animal in the sale, making them eligible for interstate shipment. The bulls and females in the sale have been pre-weaned and weaning vaccinated for respiratory disease. They have been poured, dewormed and ear notch tested for BVD. All females have been palpated and pelvic measured. All heifers are guaranteed open and have been tested for BVD and calfhood vaccinated.

## BREEDING SOUNDNESS EXAMINATION

Breeding soundness examination was performed by Dr. Miller (620) 874-5169.

## ULTRASOUND DATA

Ultrasound evaluation was performed by David Aborn (417) 861-8407.

## SPECIAL THANKS

We would like to thank our nutritionist, Dennis Holthaus, our veterinarian, Dr. Miller, our ultrasound technician, David Aborn. Thank you to our family and friends who help us prepare for the sale. Our event would not be possible without their hard work!

# AHL FLASHBACK 446B

AHL Flashback 446B is a major sire of impact within our program here at the Smoky Y Ranch. Flashback was the \$102,000 high selling bull at the 2015 National Western Stock Show in the Western Heritage Sale. Flashback was originally purchased by Englewood Farms and were fortunate enough to be able to acquire him through their dispersal sale. Flashback is an own son of the legendary Firestorm sire that has left a true impact on the breed. Flashback was the 2014 NAILE Grand Champion Red Angus Bull as a calf and has continued to impress us with each set of calves that he sires. We believe that some of the most unique individuals we have ever produced at the SY would be from the Flashback sire group. The dam of AHL Flashback 446B, AHL Duchess 42W, topped the Power Forward Female Sale to the Steve Nathanson family for \$72,000. 42W is one of the great producing Red Angus females in North America. The influence of AHL Flashback 446B can be identified throughout the offering. Lots 1 through 9 are direct sons of the \$102,000 valuation Flashback. Lots 10 through 33 are paternal grandsons of Flashback, sired by several different sons that we have elected to use back in our program. We believe in the consistency and real-world performance that Flashback brings to the table. Enjoy the offering!

*PZC TMAS Firestorm 1800 ET - Sire of Flashback*

*AHL Duchess 42W - Dam of Flashback*

LOT 1

Over the years we have maintained a small, yet high quality Fall calving program. We have decided this year to incorporate a powerful set of 18-month-old bulls for our customers to benefit from the advantages of strong aged bulls. We ran the \$100,000 valuation AHL Flashback 446B behind this set of Fall calving females. We initiate this new division of our bull sale with SYR High Plains 9603G, arguably the most exciting and impressive individual we have ever produced at the Smoky Y Ranch. High Plains is an attractive dark blood red stud that sets the standards for skeletal quality, dimension, and balance. High Plains is backed by an own daughter of the great PZC TMAS Red Sky 2794, a senior herd sire in our program. High Plains represents several generations of proven and predictable lineage. The dam of High Plains is backed by the influence the great Red MRLA 61X, truly one of the great maternal sires in the industry. High Plains ranks among the top 2% for WW, top 7% YW, and top 27% ME. A truly impressive individual that we plan to utilize heavily back within our program. **Terms announced sale day.**

## LOT 2

SYR Chanute G607 is another powerful son of AHL Flashback 446B that is backed by an own daughter of the great RED MRLA 61X, a true breeding bull that has left a strong and reliable set of daughters within our program. G607 ranks among the top 8% HB, top 5% WW, top 16% YW, and top 11% ME. G607 is a true power bull that will add length, extension, and shape to any set of cows. Smoky Y Atomic 8124F, a past high seller from 2019 that was purchased by Fort Hays State University for their progressive seedstock program. 8124F is a product of the Windy Hill Blackbird 1235Z cow family. 1235Z is the dam of G607 and maternal granddam of 8124F. Power in the blood!

SY Iron Clad 115H is sired by Smoky Y Jawbone 7314, an own son of AHL Flashback 446B. The dam of 115H is a top young daughter of Red SSS Status 106B. He ranks among the elite 8% of the breed for CED, top 8% BW, and top 9% CEM. He boasts a sensible 63 pound birth weight to accompany his paperwork. Here is a surefire heifer safe option that we recommend for use on heifers.

SYR Elkader 130H is a stout, square, wide based herd sire prospect that offers the credentials of a herd sire prospect. We like his genuine base width, skull shape, and the cow family that supports his phenotype. 130H is among the elite 1% for GM, top 1% DMI, top 17% Marb, and top 1% CW. He is balanced in his ultrasound data and combines the influence of Flashback with the numerically superior H2R Profitbuilder B403.

Smoky Y 105H is a son of 732Z that is backed by a Purebred non-registered Smoky Y Ranch Red Angus cow. He boasts a moderate birth weight to accompany his added power and shape. 105H is one of the big REA bulls of the offering, with over a 16-inch REA.

## LOT 34

Pelton Wideload 78B is sweeping the breed in terms of popularity. The reason for the hype is certainly real! Wideload is siring cattle with added body mass, density, and shape. We appreciate the structural soundness, athleticism, and foot quality. Wideload offers a unique balance of production and phenotype. 54H leads off this powerful sire group that is sure to be on everyone's shortlist come sale day. 54H is backed by a stout made daughter of WEBR Shine Down 435. He charts top 23% YW and top 17% CW. 54H charts a WW Ratio of 106 and a YW Ratio of 108. Power in the blood that will increase your programs profitability.

RED SOO LINE POWER EYE 161X  
Sire of Lots 38 & 39

SMOKY Y CAST IRON 8107F  
Maternal brother to Lots 38 and 39

SMOKY Y CONCEPT 8135F - Maternal brother to Lots 38 and 39 that was selected by David McDaniel

A-1 Siera Indeed 549X is one of the true matriarchs within the Red Angus breed and certainly one of the most prolific females that calls home to the Smoky Y Ranch. 549X was our selection from the Wildcat Creek Ranch Herd Dispersal sale. 549X is a role model female in terms of structural integrity, body mass, and udder quality. This year we proudly offer a pair of flush mate brothers that are sired by the late Red Soo Line Power Eye 161X, one of the most influential individuals in the business. This pair of brothers are stout boned, wide based, square on their corners, and offer breed leading performance and phenotype. Maternal brothers to this pair of herd bull prospects are working for some of the top seedstock and commercial operations across North America, with over 61 registered progeny recorded with the Red Angus Association of America. Chad Van Eaton, Gary Prewo, Cody James, David McDaniel, Bertrand Cattle, and Paul & Brenda Beckman have all invested in sons of the legendary 549X to be utilized within their respective programs. Here is your chance to acquire an own son of the great 549X by the legendary Power Eye!

**LOT 40**

SYR Red Man 57H is a powerful, shapely dark blood red stud sired by the multiple-time National Champion, KJHT Power Take Off. The dam of 57H is a tremendous young daughter of Six Mile & Co Jagger 780A. KJHT Power Take Off is a bull who attained national championship status at just nine months of age. He was selected as the Grand Champion at the 2015 NAILE. The son of Soo Line Power Eye 161X was mated perfectly to SRA Paintbucket, one of the impressive females born into the Picabo family of excellence. His muscle expression, rib shape and athletic movement make PTO truly one of the most unique herd sires of any breed to surface in recent years. This is a beef business bull, and his influence in the industry will greatly enhance the future of the breed. Study the genuine stoutness, muscle shape, and skeletal quality that this sire group represents. 57H is a maternal brother to Smoky Y Aftershock 9161G, the lot 3 bull from our 2020 bull sale that was purchased by our good friend and neighbor David McDaniel.

Smoky Y PTO 73H is a dense, heavy muscled son of Power Take Off that is backed by an own daughter of High Capacity. Several maternal sisters to 73H have been retained in herd here at Smoky Y Ranch. We appreciate the udder quality, foot design, and fleshing ability that his sisters and dam offer. He is a moderate birth weight bull that combines a double digit CED and negative BW EPD to accompany his length of body and stoutness.

Smoky Y PTO 123H is another standout PTO son that is backed by the great Camp 1A Miss ML Crystal S103 cow family. The dam of 123H is a full sister to the dam of SY Monument 9143G, the \$10,000 high selling bull from our 2020 bull sale that was selected by Nixon Family Farms of Floydada, Texas. Here is a prime example of what the consistency and quality of cow families can generate year after year. These bulls are genetically built to last!

LOT 47

SYR Fusion 16H leads off a powerful offering of sons that are sired by the industry leading Andras Fusion R236, one of the most consistent sires in the breed. Fusion is currently the #1 proven calving ease option in the ABS lineup. He is wide bodied, deep ribbed and heavy muscled, outstanding foot quality and structural soundness. He has an outcross pedigree featuring the proven influence of calving ease, maternal and docility leader In Focus. Progeny are moderate in stature, thick made and deep bodied with unsurpassed docility. 12H is from a hard working two-year-old dam that is sired by our senior herd sire, PZC TMAS Red Sky 2794. He charts top 28% ProS, top 15% GM, top 22% ADG, top 17% ME, top 31% Marb, and top 17% Fat. A true sale feature that is from a cow family that has produced countless herd sires working for programs across the country, including a son purchased in 2020 by Tom and Georgia Mead.

34H is a Fusion backed by a two-year-old Flashback daughter from the 1211Z matron, an own daughter of the great RED MRLA 61X. Proven, time-tested, results driven genetics that will add profitability to any program. The granddam of 34H, 1211Z has put several daughters back into the herd that are living up to the legacy that she has left.

# The Sons of Fusion

## LOT 52

We have had a great deal of success with utilizing Bieber CL Atomic C218 on our first calf heifers. The calves come with ease, offer tremendous vigor, and have rapid growth from that point on. Atomic is proving to be an excellent choice for calving ease and maternal value. Two years ago our high selling bulls were sired by Atomic and have proven to work with great success for the outfits that made the investment. SYR Atomic 18H is backed by a top young daughter of Red Sky, the one who some would say started it all for us here at the Smoky Y Ranch. Red Sky daughters continue to impress with each passing year in production because of the udder quality, foot shape, and structural build that they possess. 18H ranks top 18% CED, top 35% BW, top 21% ME, and top 6% CEM. 18H boasts an IMF Ratio of 108 and a REA Ratio of 102. Recommended for use on heifers.

## LOT 65

SYR Lexus 14H leads off the Damar Next D852 sire group. Damar Next D852, also known as, "Lexus", is a proven calving ease sire that is from one of the most prolific cow families in the industry. The dam of D852 is the great Damar Mimi W085. He is super long bodied, perfect in his basic build, with added muscle shape carrying all the way down his stifle. He ties in perfectly behind his shoulders and has the look we have been looking for in a calving ease Red Angus bull. This set of D852 sons are sure to impress on sale day. 14H ranks top 24% HB, top 9% WW, top 15% YW, and top 14% REA. Here is a big REA bull that charts with a REA Ratio of 121, boasting an ADJ REA of 16.11 to accompany his balanced phenotype.

SY Shamrock 46H is a powerful Shamrock son that is dense from end to end, bold centered, and deep bodied. He is among the elite 11% for WW, top 6% YW, top 4% ADG, and top 17% CW. 46H boasts a REA Ratio of 105. Smoky Y Gunner 6103D, Smoky Y RTG 7113E, and Smoky Y RTG 2 8182F are maternal brothers to 46H that have all been selected by McDaniel Red Angus. We appreciate the loyalty and continued business from David year after year.

## LOT 89

SYR Rushmore 67H is among the top 24% for GM, top 12% Marb, and top 4% CW. He is the number one for weaning weight in his contemporary group as he posts a WW Ratio of 113. He also charts with a 107 YW Ratio, a 102 REA Ratio, and is the number one IMF bull with an impressive Ratio of 134. Here is a performance driven, powerful, real world beef bull that has maternal value and true carcass merit.

96H is sired by Red Sky, one of the most influential individuals that we have had the opportunity to utilize within our breeding program. Red Sky is an own son of the legendary Whitestone Lana V150. The dam of 96H, Red Windy Hill Flower 1230Z, has been a true producer. 1230Z has produced a son working for Ethan Glassman of Kansas, a son that was purchased by Larry Odle of Kansas, a son purchased by Jerrad Zerr, Zerr Red Angus of Kansas, and a son purchased by Jason Well of Kansas. 1230Z is a true herd bull producer. . . pay attention to 96H on sale day if you're serious about adding consistency to your operation!

SYR Red Sky 78H is an own son the senior herd sire, PZC TMAS Red Sky 2794. Red Sky has left a monumental impact on our program due to the consistency and quality of both female and male progeny that he has produced over the years. Some of the very best daughters in our program are Red Sky daughters, and it is evident by the number of Red Sky daughters that have sons and grandsons in this year's offering. The dam of 78H is a powerful Napoleon 4N daughter that has recorded 12 head with the Red Angus Association of America during her tenure in production. 14 years old and 12 calves to the weaning pen... this is what we expect from our cow herd and what you can count on from a longevity standpoint when you invest in a Smoky Y Ranch Red Angus bull. Longevity equals profitability!

## LOTS 100 – 165

### COMMERCIAL FIRST CALF HEIFER PAIRS

Once again, we are proud to offer 60+ commercial first calf heifer pairs in lot groups of 5. This set of females is from the heart of the Smoky Y Commercial herd. Many of these females are backed by the same genetics as our registered herd and have been culled strictly for feet and leg issues, potential udder quality issues, or fertility. These females have been under the same management and vaccination program as the registered herd and sell in proper health. This is a tremendous set of females that will have videos available at CCI.Live prior to the sale.

## LOTS 200 - 360

### COMMERCIAL REPLACEMENT HEIFERS

We have previously offered a fancy set of commercial open replacement heifers; this year we have more than we can retain ourselves. This is the deepest and highest quality set of commercial open heifer calves we have ever offered for sale. We are proud to offer the largest set of females to date! 160+ commercial open replacement heifers that are red and black hided will sell on April 8, 2021 following the bull sale. The females will be sorted by like kind, hide color, and frame size prior to the sale and lot tagged accordingly. They have had all the pre-breeding shots, been poured, de-wormed, PI Tested, bang vaccinated, and pelvic measured.

**For further information call Cody Younkin (303) 621-4970 or Kelly Younkin (785) 672-2345**

*Achieve it!*

# RETURN ON INVESTMENT

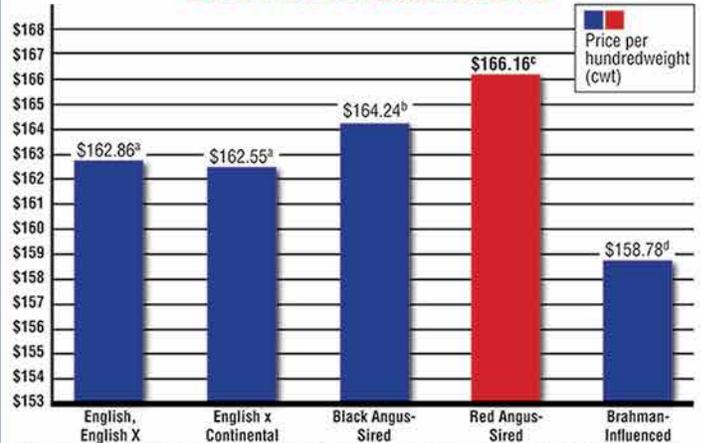

Red Angus genetics will improve your return on investment!

"For 10 to 15 years all the buyers ever talked about was black calves, and the black calves always brought more than everything else. Now I can honestly say that good Red Angus calves outsell the black calves and I know the Red Angus bred heifers will outsell black Angus bred heifers of equal quality every day."

– Jim Davis, Superior Livestock Auction

## Effect of Breed Description on the Sale Price of Beef Calves\*

\* King, et al., 2015. The effect of breed description on the sale price of beef calves sold through 116 Superior Livestock Auction's video sales from 2010 – 2014. J. Animal Science, Volume 93, Supplement S-3, pp 640-641.

<sup>a-d</sup> Means with unlike superscripts differ (P<0.05).

Independent research shows Red Angus-sired calves sold for a higher price than all other breed groups. Red Angus bulls make a positive difference in your breeding program's bottom line.
